Commissioner for Patents

The amendment filed on 12/14/2009 canceling all claims drawn to the elected invention (material) and presenting only claims drawn to a non-elected invention (method) is non-responsive (MPEP § 821.03). The newly added claims are not readable on the originally presented invention because newly added claims 6-11 are drawn to a method of maintaining the body protein and concurrently reducing the body fat in an animal while the invention as originally claimed was drawn to a material for processed food for weight reduction diets. Since applicant has received an action on the merits of the originally presented invention, the amendment is non-responsive. See CFR 1.142(b) and MPEP 821.03.

Since the above-mentioned amendment appears to be a bona fide attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
